

Benchmarking of UKCA simulated CN against GLOMAP-bin

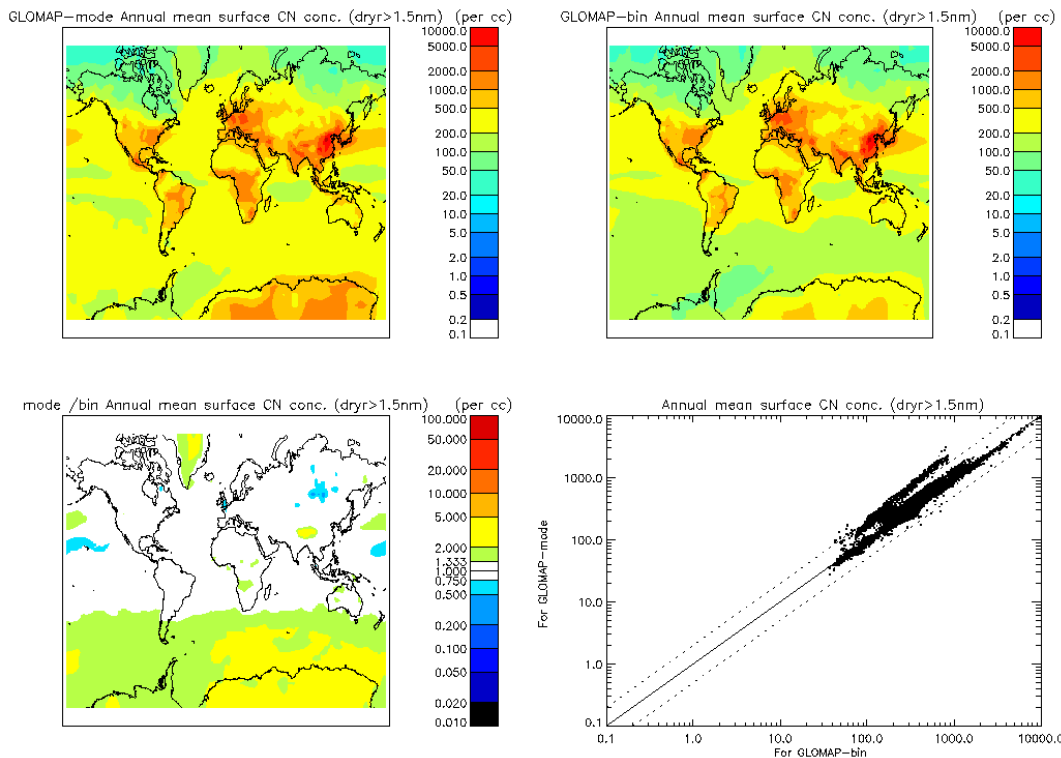

Figure 1: Simulated annual mean surface condensation nuclei concentrations in GLOMAP-mode (top-left) and GLOMAP-bin (top right). The ratio of GLOMAP-mode to GLOMAP-bin simulated CN concentration is shown in the bottom left plot. N.b. black dots in scatterplot (bottom right) show GLOMAP-mode vs GLOMAP-bin.

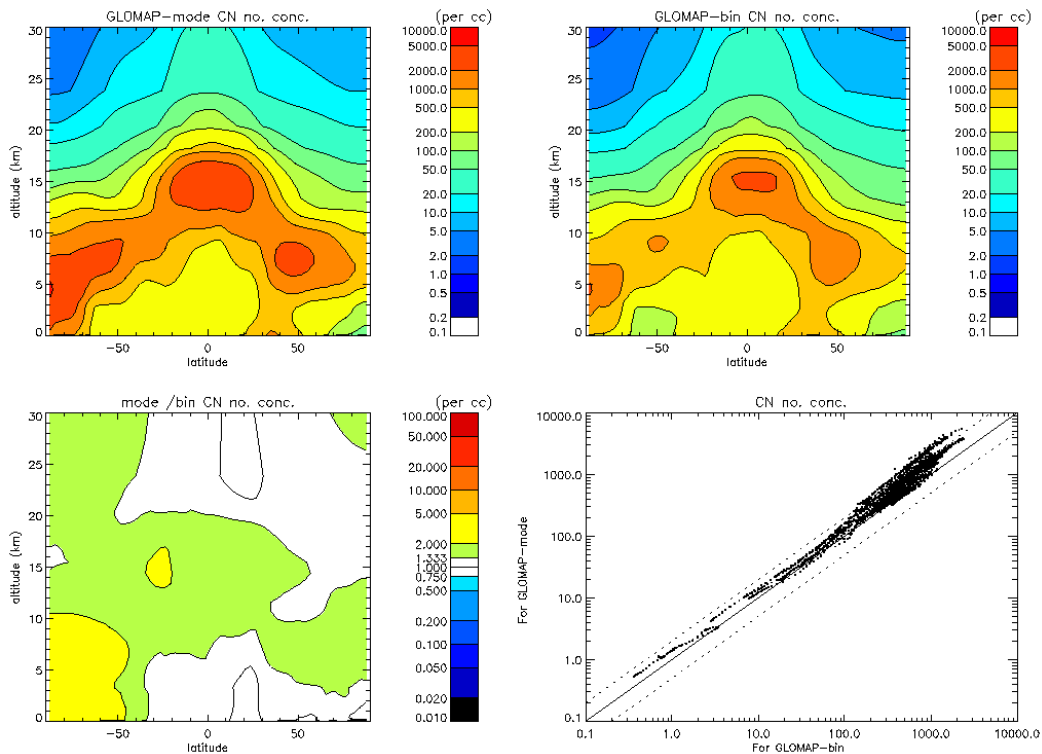

Figure 2: Simulated annual zonal mean condensation nuclei concentrations in GLOMAP-mode (top-left) and GLOMAP-bin (top right). The ratio of GLOMAP-mode to GLOMAP-bin simulated CN concentration is shown in the bottom left plot. N.b. black dots in scatterplot (bottom right) show GLOMAP-mode vs GLOMAP-bin.
