

Evaluation of UKCA simulated EC and OC aerosol mass in GLOMAP

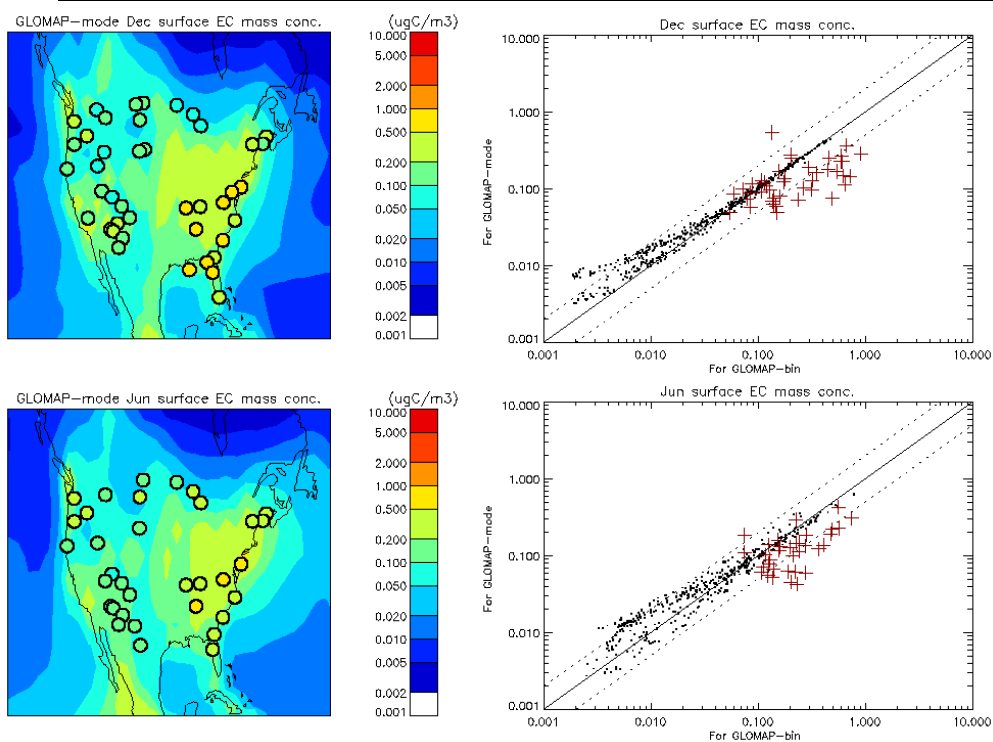

Figure 1 Simulated Dec and Jun mean surface EC against IMPROVE observations
N.b. black dots in scatterplot show GLOMAP-mode vs GLOMAP-bin comparison.
Red pluses indicate GLOMAP-mode vs IMPROVE observed EC concentrations.

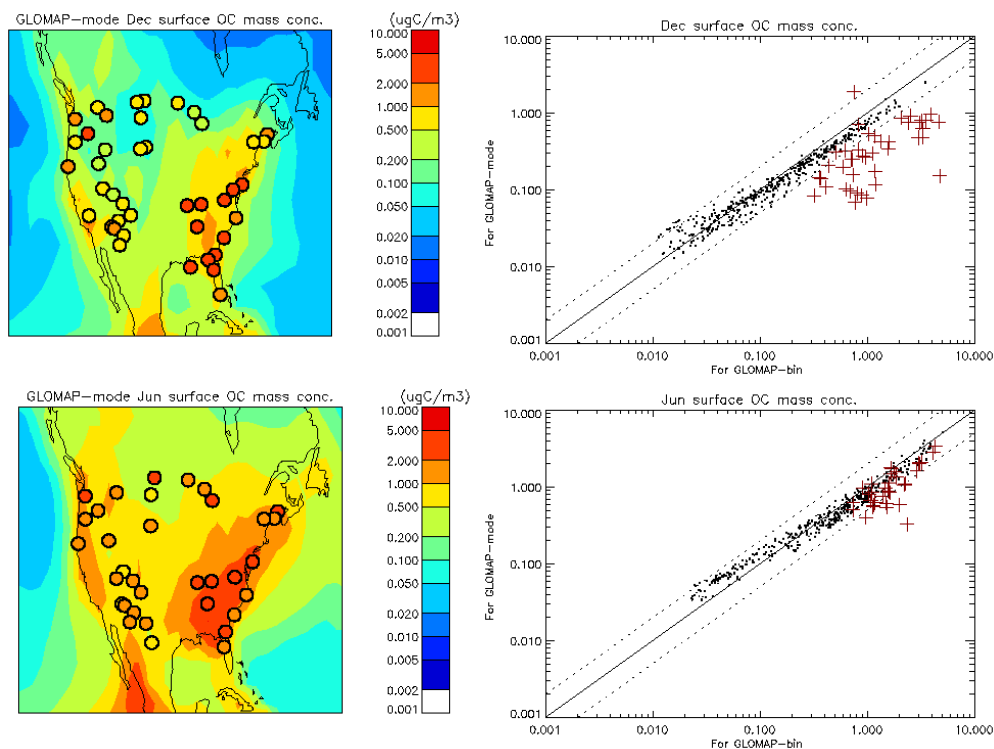

Figure 2 Simulated Dec and Jun mean surface OC against IMPROVE observations
N.b. black dots in scatterplot show GLOMAP-mode vs GLOMAP-bin comparison.
Red pluses indicate GLOMAP-mode vs IMPROVE observed OC concentrations.
